

PRINCE2[®] in Bath

No Compromise on Quality

Benchmark is the only PRINCE2 Accredited Training Organisation based in Bath. This means that we can pass on any savings we make running the course in our home city directly to you. So our prices are significantly lower than many other PRINCE2 training providers but you will not be compromising quality for price. Our aim is always to ensure that every delegate gets exactly what they want out of a Benchmark course.

Excellent Venue

Our venue in Bath is **Bailbrook House**, an 18th century mansion house set in 20 acres of private grounds. Facilities include a fitness suite, sauna and spa bath as well as all-weather tennis courts, available to all delegates.

Refreshments are available throughout the day and a 2-course hot and cold buffet lunch is included in the price of the course.

There is also ample free parking on-site. The training rooms are bright and spacious and the location provides the perfect environment for an intensive but highly rewarding period of study.

The residential options include en-suite overnight accommodation, full breakfast, and a 3-course dinner.

Examination Promises

Our PRINCE2 courses are far more than just exam crammers and our trainers go out of their way to make sure that delegates are able to use PRINCE2 in the real world. At the same time, everyone wants the best possible chance of exam success. We're confident enough to offer an unlimited, money back guarantee of success in the Foundation exam. What's more, if we enter someone for the Practitioner exam, we promise to support them until they pass the exam. This is done through our free on-line consultancy service and by offering our delegates fee-free, follow-up places on any of our PRINCE2 courses and workshops. They just need to meet minimal accommodation and exam costs.

It's Not All Hard Work

Opting to study for two examinations in the same week is pretty intensive. Some evening work is inevitable during the course to prepare for the examinations, but we keep this to a sensible minimum. While effective learning is the overall aim, it's equally important to relax and enjoy yourself when attending a training course. And there's no better place to do that than the World Heritage City of Bath. If asked, our trainers will always point you in the direction of the best places to enjoy a quiet pint or glass of wine after a hard day's work.
